PROFESSIONAL EXPERIENCE

Lead UI/UX & Product Designer Oct 2020 – Present

Successive Technologies

- Lead UX strategy and end-to-end product design for SaaS and enterprise products for clients in the US, UAE, and India.
- Build and scale design systems and component libraries used across multi-product ecosystems, keeping design and development consistent.
- Plan and run usability testing, then redesign user flows to simplify complex, information-heavy workflows.
- Partner with Product, Engineering, QA, Business, and Leadership stakeholders to turn business requirements into clear UX solutions and production-ready handoffs.
- Influenced product roadmap and UX direction by leading research-backed workshops and design reviews with leadership stakeholders.
- Create high-fidelity interactive prototypes to secure stakeholder approval; lead design reviews and workshops.
- Mentor designers and set design standards for consistency and continuous improvement across projects.

Senior UI/UX & Visual Designer Mar 2020 – Aug 2020

ASA Ventures, Dubai, UAE

- Designed wireframes and interactive prototypes for web and mobile applications.
- Restructured navigation and user journeys to make key tasks easier to find and complete.
- Delivered complete UI systems for web and mobile apps, from wireframes to developer-ready screens.
- Worked closely with stakeholders and UX leads to align design decisions with business goals.

UI/UX & Visual Designer Jul 2017 – Mar 2020

Tanisha System Inc.

- Defined user flows and information architecture for web and mobile products.
- Designed responsive web and mobile interfaces and page layouts.
- Built style guides and UI standards to keep designs consistent across teams.
- Improved workflow clarity and usability through iterative design refinement.

Web Designer (UI & Front-End Specialist) Nov 2009 – Jul 2017

Fore Technology

- Designed and delivered 50+ responsive websites across multiple industries.
- Reduced page load and layout issues by writing clean, structured HTML5 and CSS3.
- Improved user engagement by redesigning outdated layouts into modern, responsive UI.
- Standardized reusable UI patterns to speed up the design-to-development workflow.

KEY CLIENT PROJECTS

- **BIG Language Solutions (US)** – Created brand guidelines and a unified custom design system across 5+ products (LanguageNow, LanguageVault, IPVault, BigIP, InterpVault); leading the redesign of legacy dashboards and mobile apps into one consistent, scalable experience.
- **SAAL.ai (Abu Dhabi, UAE)** – Designed features and UX improvements for large-scale UAE government and defense platforms, turning complex functional requirements into intuitive, modern UI.
- **Stride Learning (US)** – Redesigned information-heavy learning dashboards across web and mobile using a user-centered approach for more intuitive, accessible experiences.
- **Cura Patient (Irvine, CA, US)** – Designed healthcare products including Othena, patient and doctor dashboards, a hospital management platform, and mobile, iPad, and web apps; established a centralized design system.
- **Wasl Properties (Dubai, UAE)** – Owned end-to-end product design: information architecture, user flows, wireframes, high-fidelity UI, and developer handoff.
- **GulfHR (Dubai, UAE)** – Built a scalable design system and turned complex HR workflows into intuitive experiences, from UX strategy through prototyping.
- **Growers (US)** – Created brand guidelines and a design system from scratch for Farmer and Retailer apps; led UX/UI through production-ready mockups.
- **MacroPlate (US)** – Designed the official website and order management dashboard from concept to development-ready deliverables.
- **Bajaj Finserv (India)** – Designed a lead management dashboard to streamline lead tracking, follow-ups, and workflow visibility.
